

Dear Pastors and Supporting Churches,

October flew by and I can hardly believe we are half way into November. It is hard to describe how months run together with the absence of seasons! Although the date on the calendar changes, nothing around us seems to change. It is still hot and humid but we are enjoying some windier days this month. We really enjoy the feel when a storm passes by but we Praise the Lord when they just pass by and don't hit the island directly!

Even in the heat, we are busy preparing to celebrate Thanksgiving and Christmas! **We have planned a special Thanksgiving dinner with a testimony service to follow and our first baptismal service since our arrival.** This month we saw a high of 54 in a Sunday morning service. We were definitely full to capacity! Praise the Lord, one of our supporting churches sent \$200 to purchase ten more chairs so we no longer have to move chairs in and out each service for the children's classes.

Praise the Lord, we had two of our attendees receive Christ this month. One is Rose, Grandma Rose to us. She has been attending since mid-March and heard the Gospel many times. This past Sunday she prayed and accepted Christ. As with many older people that come to Christ, she has a lot of baggage and habitual sins that she needs to give to God and claim the victory. Please pray for her specifically. **The second was a young girl, Nenen.** She too has attended for several months and has listened very intently to each story and message. One Wednesday night after the children's class, she told Jesse that she wanted to be saved. She brings her Bible to each service and has since brought two of her teenage sisters. This past Sunday she put her name in our memory verse program and was ready to quote the verse had she been called!

As an update, we could still use some more sheets for our costumes for the children's program. At this time, we have heard from two churches that they are putting together a box and we have received one box. We do not want to inconvenience anyone but if you have any "old sheets or curtains" that you want to get rid of, we could use them.

Please continue to pray for Gus, Fina, and the many children that attend. Pray for our baptismal service that those that have been saved will follow the Lord in baptism and that many family members will attend. **Pray as we continue to prepare for our children's Christmas program.**

Thank you for praying for the family! We've already had an eventful November! **Deborah turned ONE on November 6th!** And, we experienced our first "house shaking" earthquake this morning! We even took a small break from school and headed up the hill just for precaution but no Tsunami! Of course the lady at the post office laughed as we stopped on our way home; but it sure felt "BIG" to us! Please **Continue to pray for William as he finishes up his first semester at BCM.** He is scheduled to arrive December 19th, Lord willing, for Christmas!

Because of Him,
Bill Henderson

October Teen Activity Hiking Mount Lamlam, the tallest Mountain on Guam!
(some say in the world...Google it:)

Impromptu Elementary Activity.
The kids were out of school for
teacher work day and BEGGED
to come to house and play!

Deborah's 1st Birthday!

(Before and After ☺)
