

Dear Pastors and Churches,

Thank you for your prayers for our ministry this past month. We had a wonderful picnic or as they say here, fiesta last month Our regular folks were faithful to attend and we had a **few first time visitors**. Everyone had a great time, **the Lord held off the rain**, and of course we had plenty of good food! The Henderson kids were wondering what it would be like to show up at our home church with a rice cooker full of 30 cups of rice!

We are rejoicing at the salvation of a young girl, Connie, this month during door to door. We have been on her street numerous times before but her house is at the end of the road and surrounded by a large fence that is always closed and locked. As I was speaking to a lady at one house, I noticed the JW's at another house up the road. They got back in there car and left, not taking the time to drive to the end of the road where Connie lives. I assume because they know as well as I that the gate is always closed and locked. I got in the van and almost left that rode also, but I decided to go to the end of the road and turn around "just to check." Praise the Lord, the gate was open! I took the long drive up the driveway to the house and Connie came to the door. After sharing the Gospel with her, she prayed and asked Jesus to save her. Pray that she will allow us to disciple her and that she will attend services.

Please pray specifically for the salvation of Gus. Gus is a seventy-six year old Catholic man. He is the golf coach at Father Duenas, *THE Catholic School* on island. I knew this as I went to hand him a tract and honestly I was hesitant thinking that he would either hand it back and say he is Catholic or just put it in his pocket. However, the next evening, he called the house and said that he was reading the paper that I had handed him and "was very interested." I gave him the Gospel on the phone and then invited him to church the following Sunday. He came! He has returned the last three Sunday mornings! His second Sunday here, one of the bus kids asked me for a Bible. He saw me get one and give to her and he asked if he could have one too I gave him a Bible and put his name inside. **Please pray that he will see his need of Salvation through Jesus Christ alone!**

Also, if you would **pray especially for May this month**. She is very sick and in need of a kidney transplant. She is entering the hospital tomorrow for some testing. May is the grandmother of Kevin one of our faithful attendees. She has been attending on Sunday mornings for over six months now. She actually drives over 30 min. to get here each Sunday. **She is not saved** and this past Sunday Tonja really confronted her. Tonja went through the Gospel with the Bible in hand and had her read each verse. She pleaded with her to accept Christ and May just cried and said, "You know I'm Catholic." Tonja asked her if she was afraid to die and she, through tears, said yes. Tonja went on to tell her that she should be and that she needs to trust Christ and Him alone as He is the **ONLY WAY** to Heaven! **Pray that the Holy Spirit will do a work in May's heart and that she will choose to be Saved!**

Please continue to **pray for the salvation of Fina, Brandon, Rose, and the many children that attend** faithfully each service. **Pray for the teens especially as we will be having a teen activity this Friday evening here at the house.**

Thank you for the continued prayers for the family. Everyone is doing well and staying busy. We had some viruses and colds pass through the house this month but everyone is on the mend!

Because of Him,
Bill Henderson
