Traveling Witness

We had a couple of meetings in January and one of those voted to pick us up for support right there on the spot! What an encouraging way to start the year!

We were invited to assist on a church auditorium project and spent the entire month of February in North Carolina working on that. What started as replacing a section of sub floor and then recarpeting turned into finding out a completely new slab needed to be poured. This opportunity allowed for a unique witnessing opportunity to the concrete crew who originally were never going to be needed.

Our time on the weekends was spent visiting and sharing the ministry with other churches; as well as door knocking and getting involved in various church ministries. We were also able to catch up with one of Chris' childhood friends from Florida while in North Carolina. While we do enjoy deputation, being on this project has us excited about the day that we can be with a church for a longer term project, and be able to follow up with some of the people that we meet in the community.
