2018,2019

Dear friends and churches,

We want to begin this letter by wishing each of you a very Merry Christ centered Christmas. Its our prayer that this next year will be your greatest in service to our Lord.

The ministries here in Florida, Haiti, and the Bahamas are going very well with the Lord saving souls and the churches prospering in God's works. Our pastors are all doing well and beginning new mission works out of their churches. This is helping to fulfil our dream of getting the gospel to all the island so many years ago. God is doing great works through the faithfulness of those of you who pray and help support the different efforts to share Christ.

We began a new ministry in our church here this past year and are proud to see results and this ministry growing. We began trying to help and evangelize the homeless and those not as fortunate as many of us. We have a food distribution with food, blankets, clothing, etc. , we have been working with the sheriffs department to reach the homeless camps. We have other areas which have asked for our help now and will try expanding this ministry as we can. Of course our primary objective is to introduce Christ to those we minister to.

Louise and I are doing well even though we are beginning to get up in years, I can assure you that we will continue to do what we can to win others as long as possible.(several more years I hope).

Again our wish is that you have a great year ahead of you. This may be the year our saviour comes for his church, how glorious would that be? We love all of you and pray for you daily.

Yours in Him,

Bob & Louise Kline

Thank you for the card you sent to encourage us. God always meets our needs. Thank you for your faithful prayers & support to Haiti & the islands. Have a great Christmas & a prosperous New Year.
